# 1.8/3/5M USB KVM Cable

- USB type A with VGA
- Shielded VGA cable supports clear image
- Ferrite cores design for signal filter and anti-interference

PLANET KVM-KC1-1.8/3/5 Cable connecting your computers to your KVM switch determines the quality of communication between the CPUs and the KVM switch. Our custom-made cables are designed to provide the highest signal capacity with the lowest signal loss. This important technology produces the highest quality video output, even after long-distance transmission or in the most electronically noisy environments such as server cabinets. Planet's premium custom-made KVM cables guarantee optimum signal integrity for high-grade server needs. The keyboard and mouse cables are made of double-sealed 28-gauge wire and are neatly wrapped with a heavy-duty video cable for simplified connections.
